

# Turf, Parks and Gardens

Neutrog's Year Round Fertilising Program has been specifically developed by experts who rely upon optimum growth to earn their living. Each product has been

manufactured utilising a unique blend of organic materials, designed to maximise the performance when applied in each particular season.

	Winter	Spring	Summer	Autumn
Garden				
Lawn				

## Application Rates

### New Turf

500kg Rapid Raiser per hectare. Apply immediately prior to seeding or laying.

### Established

300kg-500kg Blade Runner/Upsurge per hectare once in each season.

## Gardens

140gms Rapid Raiser/Bounce Back per square metre once in each season.

Specialist products such as Sudden Impact for Roses are also available.

Sudden Impact for Roses has been specifically developed for roses.

This would replace Rapid Raiser in the Year Round Fertilising Program (Gardens).

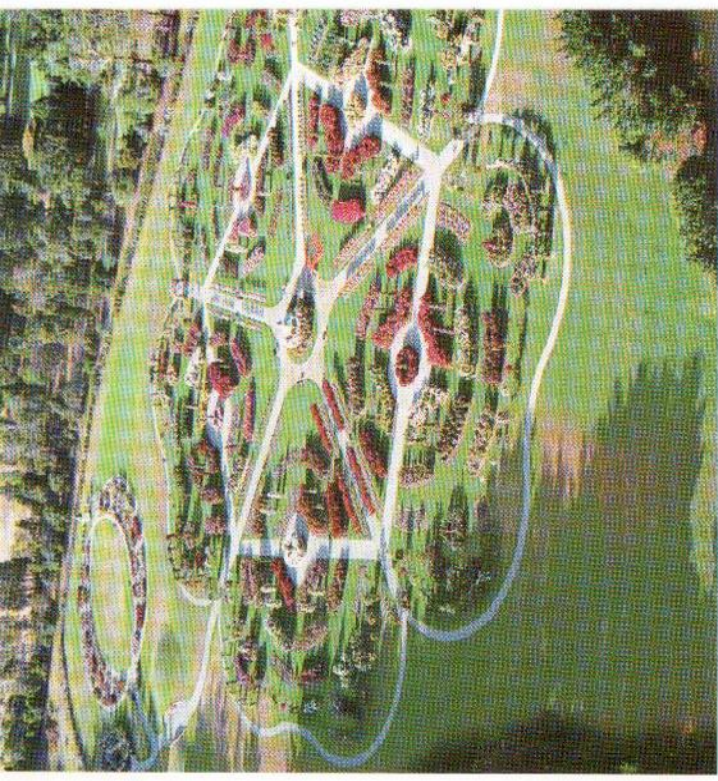

## Application Rates

**Established rose bushes**  
100g per bush.

**Established potted rose plants**

15g per 150mm size pot then at 5g per 25mm pot size increase.

*Caution! Not suitable for use with bare rooted or newly planted roses and native plants.*
